ELEVENTH ANNUAL REPORT
OF NEW
GLADIOLUS and SEEDLINGS
For the Season of
1 9 4 1
TRIAL GARDENS

In Charge of
E. A. LINS - - SERVICE OFFICER
Spring Green Post 253
SPRING GREEN, WISCONSIN

In Flanders fields the poppies blow
Between the crosses, row on row,
That mark our place; and in the sky
The larks, still bravely singing fly
Scarce heard amid the guns below.
We are the Dead. Short days ago
We lived, felt dawn, saw sunset glow.
Loved and were loved, and now we lie
In Flanders fields.

Take up our quarrel with the foe;
To you from failing hands we throw
The torch; be yours to hold it high
If ye break faith with us who die
We shall not sleep, though poppies grow
In Flanders fields.

JOHN McCRAE.

Information just received while body of report was being printed.—
Early Bird by Spencer will be named PINK RIBBON.

HOW TO GET FREE BULBS

Over and beyond the extras.

Make out your order for \$1.00 or more. Include a list of the varieties you grow. Send 25 cents extra as a donation to the Red Cross and we will include 25 cents more in free bulbs as long as we are able. When out, your money will be refunded. If you wish, you may send 25 cents direct to the Chairman of the Red Cross, Spring Green, Wis., but include the list of those you grow with your order to us. In this way you can be sure your two bits goes where you want it to go.

—or—

No Order Required.

You can send two bits direct to the Red Cross here, and send us a list of those you grow. We will send you good bulbs of the best varieties, together with extras, for your donation. When you receive the package, please send US the amount of the postage we used to send the package to you. If this offer is withdrawn because of shortage, we will donate three cents personally to return your little donation.

DO YOUR FRIENDS GET THIS REPORT? Why not sit down and give us their names and addresses. We want a live mailing list that we can tap for service work in the years to come.

GREETINGS FROM THE TRIAL GARDEN

To our old Friends, Hello again. To our new friends, Glad to know you. We wish to thank all our customers for the orders sent to us and also the orders sent through us for the varieties in the Trial Garden. Your orders have helped others to realize there are several valuable reasons for sending to the garden.

A word of explanation to those getting this report for the first time.

The start of this garden came about in our efforts to have new varieties from year to year for shipment to the disabled veterans in the hospitals and has grown far beyond that need in a very short time. These are the only shipments of flowers we make and have been made possible by the patrons of the Trial Garden and bulbs purchased by our friends.

All bulbs sent to the Trial Garden, together with the increase, remain the property of the sender. They will be carefully checked for three years. They are returnable upon request. All sales we make are on a commission basis, the sender furnishing the bulbs. If the bulbs are left with us they become our property AS FAR AS SALES ARE CONCERNED, when they become "5 & 10" items. We still will return stocks and have at times returned large stocks of items whose value was not realized for several years by the sender, even though they had passed beyond the three years.

Our personal list is also included in this report for the first time. Income from this is used for the shipment of flowers to the hospital and no profit accrues to us. The expense of printing and postage is paid for personally. All items starred in our price list, with the exception of the "5 & 10" items, will be sent to us by the owner of the variety and forwarded from here.

Every effort is made to prevent approval of varieties and seedlings which might not perform well for you and should you select something that our opinion tells us will not do well in your climate, we will inform you of the fact.

Our season was exceptionally hot and unusually dry. We have every confidence that your results will surpass the figures given in the report. If you should be disappointed, won't you please report to us. We want you satisfied and if we have allowed you to purchase something that cannot do well in your climate we feel we are somewhat at fault.

All germination tests this season have been thrown into the discard. Weather conditions early in the season prevented germination to a great extent. However the bulblets which finally did germinate have given us the best bulbs it has ever been our pleasure to harvest.

Our dipping and spraying tests have been continued. We did not use Lysol this season. Many have and report good results. To them it might be interesting to know that creosole compound will make an excellent dip.

We used Rototox, Delbetar and Bi Chloride of Mercury, running two barrels of Bi Chloride and two tanks each of Rototox and Delbetar through the planting season. Any one of the dips mentioned here will give a very high percentage of kill to thrips and their eggs. Probably 100% but that is hard to be sure of.

Rototox and Delbetar carry the advantage of being usable in metal containers although they have the disadvantage of losing their strength by evaporation while Bi Chloride will not. Bi Chloride is very poisonous and its presence in the water not easily detectable.

Delbetar at first was made without Rotenone nor Pyrethrum and was quite successful for mites, etc. The last two ingredients were

added later without any change in the original formula so it still retains killing power beyond the life of the Rotenone.

Delbetar attacks fungus growth also and we kept this in mind throughout our spraying program.

As a spray we used Rototox, Delbetar and Tartar Emetic. Our planting being in three large fields by themselves. Rototox does a fine job. Lead Arsenate will also do fine as also the dusting program used by many. We have not dusted since dusting is more effective if done while dew is on the foliage. We have a horror of wasting early morning sleep and then finding no dew on our planting.

Delbetar and Tartar Emetic spraying seemed to be effective over a longer period of time than most sprays. We feel they are effective until rain washes it off or until there is considerable new growth.

Bearing in mind the effectiveness of Delbetar in spraying roses, delphinium, etc. we watched our bulb harvest closely on the assumption that disease free foliage from the use of Delbetar might have a tendency to produce healthier bulbs. Our plantings had all been preceded by alfalfa and so our complete harvest was very clean. We do note a tendency in the Delbetar section to cleaner and more healthy bulbs and will pay considerable attention to this idea in our 1942 spray program.

WHATEVER DIPPING AND SPRAYING PROGRAM YOU MAY DECIDE UPON, DO NOT PUT OFF OBTAINING YOUR MATERIAL Write us at once. With few exceptions we can save you considerable **BUT MUST HAVE YOUR INQUIRIES EARLY. DON'T PUT THIS OFF.** If you do you will probably do without.

Delbetar prices just received. Subject to change without notice:
2 oz.—45c ½ pt.—1.00 pt.—1.75 qt.—3.00 ½ gal.—5.50 postpaid,

We have just discovered a terrible oversight on our part.—No testimonial letters.—So here are a few extracts. "More than pleased is putting it mildly" "Never before received such generous treatment" "Overcount and extras—OH BOY—" We have many extolling the marvels of certain varieties. Cannot use these in fairness to all concerned. Many letters have stated they never received such excellent bulbs before. We thanked many of the later for their letters and assured them that most reliable growers sent out only good bulbs but asked them to forget the fact when ordering for 1942.

We are sure you can have faith in receiving honest value from any of the men listed in this report as well as the majority of other growers. New customers are too hard to get. We all try to make new customers old customers.

We received a large assortment of Peony roots from Bonnewitz Peony Gardens, Van Wert, Ohio. All first class varieties and when these become established we will be able to ship Peonies to the disabled also. Our thanks to them. When in the market for Peonies we would appreciate your writing to them for their catalogue.

Are you sending to the Trial Garden for 1942? Report of performance will be made direct to you for your approval and only then will it be included in our annual report. We will be fair with you. In return we ask you to play ball with us. Please don't send seedlings you are in doubt as to whether to discard or not. We have not the room. It is true that there are several of the leaders that we saved from discard but hundreds each year that are sent to us should have been discarded earlier at home.

You have everything to gain and nothing to lose by sending your worthwhile creations to us.

EXPLANATION OF FIGURES ON THE FOLLOWING PAGES

The first figure preceeding name is the number of years up to three that we have grown this variety.

Following the name the figures are in the order as follows: First, average days to bloom here, next average height, length of flower head, number of buds, number completely open, number in color, and last average size.

From R. C. DANIELS

- 3 MRS. EDNA DANIELS --90 54 25 20 6 4 6
Buff pink. Some brown penciling. Very good looking. Don't let the buff scare you as this is really very pretty and makes a fine spike.
L 1.50 M .75
- 2 FEZ -----70 54 25 16 6 4 4½
Bright ruffled scarlet. Very well proportioned in appearance.
L .50 M .25
- 2 LOIS M -----95 48 22 18 6 4 5
Lavender with violet red feather blotch. Some undercurrent of red in the lavender makes this rather unusual.
L .50 M .25

From H. J. HARDER

- 1 EDITH GRACE -----90 53 24 24 7 5 4½
Beautiful white with wine red blotch. Exc. texture 1st at Midwest and several others. Winner every where shown in 1940. An excellent propagator and one you will like very well. Price very reasonable.
L .75 M .50 S .25 Bits 10 for .50

Wholesale prices 25% discount.

From PARADISE GARDENS

- 2 MISS EVERETT -----80 50 21 18 7 5 5
Very clean pink. White throat overlaid cream. Light ruffling. Very little misplacement, but some.

From HOWARD T. MUNSON

By Wm. Schenetzky

- 3 KING WILLIAM -----75 54 26 18 7 4 5¾
Always very consistent. Light pink deeper to edges with cream throat. A very beautiful glad that can be fed and watered to some real wonderful spikes.
L .50 M .30 S .15 Bits 10 for .40

From WM. SCHENETZKY

- 1 1027-35 -----80 58 21 18 9 5 3½
Lightly ruffled yellow or heavy cream. If performance of this continues as it has in the past we are sure you can look forward to it for 1943.

From C. C. VAN VOORHIS

- 1 RACHEL STRYKER ----95 52 28 20 9 4 4½
Fluted pink. Impresses us that it will be an excellent show glad.
- 1 GERTRUDE WHEELER 95 52 20 20 8 4 4
A red, grown in small quantity but looks fine.
- 1 ANN STRYKER -----90 50 20 18 7 4 5½
Slightly ruffled dark pink with cream blotch.
L 1.00 M .65 S .35 Bits 1 for .10
- 1 VANORA -----85 45 22 18 7 5 4½
Orange with gold throat. Prominent lines in throat may detract from its beauty but should win on the bench.
L .50 M .35 S .15 Bits 2 for .10
- 1 VAN BUFF -----70 48 23 18 7 5 5
Very pretty ruffled buff with tinting of pink. Liked it very well.
- 2 ALICE VAN -----90 46 20 18 9 6 5
Rich salmon pink with cream throat. Splendid spike.
L .25 M .20 S .10 Bits 4 for .10
- 2 BROWN ORCHID -----75 60 30 22 6 4 3
Brown and gold. Prize winner 1940. Best spike grown by a woman, Midwest 1941.
L .35 M .25 S .15 Bits 3 for .10
- 1 VAN GOLD -----70 50 21 18 6 4 4¾
Rich gold. Very appealing.
L .50 M .35 S .20 Bits 2 for .10
- 3 JEANIE JAMES -----75 60 25 20 6 3 4½
Violet blue. One of the best.
L .35 M .25 S .15 Bits 3 for .10
- 3 JIMMY BIDDLE -----90 52 23 20 9 5 3¾
Apricot to buff pink with some gold. Very fine for a show glad.
L .35 M .25 S .15 Bits 3 for .10
- 3 READINGTON -----75 52 22 18 7 4 4½
Violet blue with cream spot. Along with Jeanie James, one of the best.
L .50 M .35 S .20 Bits 2 for .10
- 2 RUTH VAN -----90 65 29 20 5 4 4¾
A smoky rose with a cream throat. We do not like the smoky appearance of this but it is far too good in performance and spike appearance to leave out.
L 1.00 M .65 S .35 Bits 1 for .10
- 3 TWEEDLEDUM -----70 48 22 18 7 6 3
Rose red with yellow blotch. Appealing for itself and should be

grown in most gardens. Takes blue ribbons easily. Don't shove this small one over on the Mrs. Raise it yourself.

L .15 M .10 S 2 for .10 Bits 10 for .10

- 3 VEE CREAM -----85 52 24 18 6 6 5
Beautiful rich cream with scarlet blotch blending in very nicely. Good performance. Whether a ribbon hunter or not you will like this for its beauty.

L .50 M .35 S .20 Bits 2 for .10

From F. E. YOUMANS

- 2 ADA BELLE -----75 58 26 18 5 5 4
Rich pink. Very clean. Slightly ruffled.
- 1 35-5 -----90 52 23 20 5 6 5½
A ruffled deep brown smoky for a novelty. Fair weather conditions would easily open more.
- 1 36-10 -----85 60 29 18 5 4 5
Slightly ruffled orange producing a good spike.

From HARRY DEAM

- 1 19 -----85 58 27 25 4
Light lavender. Had some beautiful spikes of this just opening but an accident destroyed them.

From F. G. CAVE

- 1 SHARON -----80 57 22 24
We have left several blanks on this one. It opened from 9 to 12 with 5 and 6 in color. Size ran up to 5½ inches although normal should be just under 5. This was excellent. Supposed to be salmon but came more flesh for us.
- L .75 M .40 S .20 Bits 7 for .25
- 1 MRS. L. W. ANGUS ----80 60 29 18 7 4 5½
Heavily ruffled and fluted parchment with pink tone and yellow. Usually supposed to be only moderately ruffled. Texture excellent. Very clean and ladylike.

Prices same as Sharon.

- 1 DELHI -----85 50 20 20 10 6 4¾
Rich red purple. Brilliant and beautiful with ruffled florets. Both formal and informal spikes for us this year.

Prices same as Sharon.

- 1 COHO -----90 51 24 18 10 6 6
A beauty. Pink to salmon pink with cream throat. Nicely ruffled and formed. You will like it. We would hate to be asked for the return of any of these, and hope there are others or seedlings to come from this garden for 1942.

Prices same as Sharon.

From CLAYTON TOBIN

1 PAULA ANN -----75 50 24 18 8 4 5½

Heavily ruffled soft melting rose. Very clean florets and very beautiful. An excellent cut flower as the florets hold up well. We know of no reason why this should be priced so low.

L & M .50 S .30 No bits.

From JOHN CANINE

3 BINGO A lovely cream sport of Picardy, with tinting of pink. Yellow throat. This has been exceptionally well received because of its beauty. Its performance checks with Picardy.

L .20 M .15 S .10 Bits 10 for .25

2 MOONSTONE Another marvelous Picardy sport which took our breath away last year and again this year. This is cream but has some lavender shading. Both have more appeal to us than Picardy. We recommend obtaining this las season at \$1.00 for Trial. This season it is priced at \$2.00 but well worth it.

1 045 -----80 56 23 24 7 3 5

A very lovely lavender. Will be named later this season and is available to those who wish to try it at \$5.00. In checking our figures remember our season was at least erratic.

3 SWEET ALIBI -----80 56 25 18 7 3 5

A very clean pink with nice performance and plenty of appeal. No alibi required.

L .20 M .15 S .10 Bits 10 for .25

3 BEAUTIFUL DREAM --85 50 24 18 7 4 5¼

A dream for beauty and usually behaves itself fine. Under extremes there will be some crooking.

Prices same as Sweet Alibi

2 TIGER LILY -----80 51 20 16 6 4 4¾

A brick red with darker flecking giving the appearance of a Tiger Lily.

L .50 M .40 S .30 Bits 5 for .15

1 ROMAN GOLD -----75 53 25 18 6 3 4½

Pure self toned orange. Graceful strong spikes. We liked this a great deal.

L .25 M .20 S .15 Bits 5 for .15

1 HAPPY DAYS Performance and blooming date almost identical with Roman Gold but opens 1 or 2 more and is larger. Orange but blending to golden throat.

L .50 M .40 S .30 Bits 5 for .15

If you don't try some of the above you will be missing a treat. There is some shenanigans going on in the Glad A Way gardens. We have heard from friends that there are a few more Picardy sports in sight.

From W. A. BEATON

- 2 MRS. HEPBURN -----75 42 18 14 5 3 4
Heavily ruffled chrom yellow. Often some slight pink tinge. Like Olive M. Browin, it crooks but makes a good basket and general purpose spike.

L .30 M .20 S .10 Bits 10 for .25

- 2 NOREEN -----80 50 22 18 6 5 5
Pale lavender with pink cast. Rose red feather over white blotch. Rather a good show record for this with limited distribution.

Prices same as Mrs. Hepburn.

- 2 MARJORIE DE COU ----80 46 20 18 7 4 5½
Prize winning mauve and rose pink, with a blending of cream.

Prices same as Mrs. Hepburn.

Additions for 1942 from above which seem very interesting to us from the reports we have received.

YOHO Wine purple ribbon winner.

SEQUENCE A beautiful light pink.

MRS. WM. HILLS A light salmon for the show table.

From FRANK P. THOMAS

- 1 TOM ROBIN -----90 48 24 18 8 6 4
A neat light red. Fine spike and color and well liked by many. Throat is a little more prominent than we personally like.

- 1 SUMMER GOLD -----85 52 23 18 6 4 4
A very good yellow with deeper throat. Violet red marking in the throat that does not detract from its beauty.

- 1 RED EAGLE -----95 51 23 16 6 3 5¾
Very bright shiny red. Color is excellent, spike is excellent. Habits are fine. One of the better reds.

We are sorry to inform you that these will not be available until next season. You will miss them.

From E. H. YOUNG

- 2 ALTA -----90 52 22 18 7 4 5
A rose salmon or salmon pink with a plum blotch. A prize winner. Color description may not interest you, particularly the plum blotch. However you will find you are going to like this very well.

L .50 M .35 S .20

From GEO. W. COOMS, NEW ZEALAND

- 1 SCARLET QUEEN -----85 54 23 18 4 4 5½
Slightly ruffled brilliant shiny scarlet. Bulb s from New Zealand suffer considerable hardship in their long and delayed journey to our garden. It requires some time to get them back into condition and this should be borne in mind on checking results of first year bloom. We are already in receipt of quite a number for 1942.

From J. R. ALMEY

1 30573 -----85 70 28 22 8 7 6

Heavily ruffled smoky of excellent texture and performance.

1 34681 -----85 60 30 22 7 6 5

Shiny dark red. Certainly very good if it can keep this up. Have not heard at this time whether these are to be named or not.

From F. O. CHAMBERLIN

1 ROSY CHEER -----85 56 24 20 8 5 5½

Very bright rose red. Creamy white in petals. Very much different. Petals ruffled and pointed.

1 S 35/17-1 -----75 56 24 18 6 5 5½

Heavily ruffled, pretty pink with very rich edge and yellow throat. Clean as a whistle.

1 S 35-25-5 -----85 53 24 22 7 4 5

Light lavender pink. Clean read in throat. Petals pointed. Ruffled edging to buds. Excellent under artificial light.

1 S 34/13-A1 -----80 58 23 18 7 5 5

Bright medium to rich red. Slightly ruffled wide open florets.

1 S 33/2-4B -----70 55 24 20 6 6 5½

Ruffled. Combination of red, brown, etc. Vagabond Prince throat. Heavily underscored O. K.

1 S 37/8-1A -----80 52 24 18 4 5

Dark red but color bright and clean. Some black flecking. Light ruffling.

1 S 35/23½-1A -----80 47 22 18 6 8 5½

Brilliant scarlet red with richer throat. Lightly ruffled triangular florets. We have picked these out as the cream of a rather good assortment of seedlings. Naming will depend upon consistency and bulb habits as determined by Mr. Chamberlin. He has used good care in the past.

3 DR. KEMPTON -----85 52 20 20 6 4 5½

Red of good color and performance. Still rather scarce and may not be seen to any extent for a year or two.

3 MARY MARKOWITZ --95 50 26 20 6 5 4¾

Deep orange. Consistent performance. Very limited in supply.

3 GERTRUDE AMANDA .85 46 22 16 6 6 5¼

Pretty orange pink with yellow throat.

3 HEAVENLY DAYS -----80 50 18 16 7 3 4¾

We continue to like the coloring of this pink very much.

Mrs. Caroline W. Gannet continues to produce marvelous spikes with very large florets. Price has been high and distribution limited but it should soon begin to make regular appearance at the show bench.

From Nathan Johnson

- 1 B C GIANT -----75 54 24 18 6 8 7½
Heavily ruffled deep salmon. A slight change in weather conditions and many of the eight in color would have been open. Winner of numerous ribbons this past season with but limited distribution. We have just received a letter from one of our past customers telling us of this Giant. 70 tall with 26 buds etc. Don't know just what this really can do.

75 cents any size

From E. H. LINS, Cologne, Minnesota

- 2 STOPLIGHT -----90 56 25 18 5 4 5
Brilliant ruffled red. Carmine stripe on lower petals. New for 1942.
1L 2M 2S for 2.00
- 1 36110 -----70 52 25 18 5 4 5½
Ruffled rose red. Very good texture and good spike. Held for increase before introducing.
- 1 36132 -----80 52 20 16 7 4 5
Slightly ruffled light pink. White throat. Very clean. Also held for increase.
- 2 36148 -----85 57 25 20 5 4 6
Deep dark shiny red. Texture good and performance normally better than this year.
- 2 RIO RITA -----90 52 22 17 6 5 5½
An outstanding orange for many who tried it the past season. Several report to us it is one of the very best. Its winnings are quite impressive.
L 1.00 M .50 S .25
- 3 MELLOW GLOW -----85 50 26 18 6 4 5½
Very light creamy pink self. Have grown for a number of years because we like it. Quite a few ribbons already.
1L 2M and 2S for 2.00
- 3 BELMAR -----90 48 20 16 7 3 5½
Pretty pink with light throat. Throat peppered with red over yellow. Clean fluted and ruffled. Often grows much taller and up to 7 inch.
1L 2M and 2S for 2.00
- 1 3655 -----90 56 21 15 5 4 6½
Smooth scarlet red. Sometimes a little ruffling. At other times marvelously smooth petals. All who saw this on display were highly pleased with the spike and with the color.
- 1 34L0 -----95 52 21 18 7 4 4½
Late orange. Probably not as appealing as some oranges but produces all very good spikes of show timber.

From C. D. BALENTINE

- 3 GUERDON -----90 52 21 20 6 4 5
Rich cerise rose red. Noticeable from a distance. Slight ruffling.
Consistent.

L .50 M .30 S .15 Bits 3 for .10

- 1 LOLLIPOP -----85 58 28 18 7 5 5
Heavily ruffled, frilled and pointed light pure pink. Blotch of rose red. Very well named and always produces excellent spikes.

L 2.00 M 1.25 S .75 Bits 1 for .20

NOV-L-T We expect this black red novelty here in 1942. Has conspicuous clear white throat. Medium in size. Midseason

L .55

From O. P. STANCER

- 1 SNOW BABY -----70 54 22 16 5 3 3¼
A dainty creamy white you will like. Usually just under three inches and a very nice ribbon collector.

Any size 1.50 Bits 1 for .15

- 1 DAINY MISS -----80 49 19 20 6 4 2¾
Dainty light pink with white blotch, yellow feathering. This is excellent.

Any size 2.50 Bits 1 for .15

- 1 YELLOW GOLD -----65 52 24 22 8 2 4½
Ivory yellow with a rich throat. Very light frilling adds to its beauty.

L 1.50 M 1.00 S.75 Bits 1 for .15

You will like these well enough to grow yourself. You won't need to shove these off for the wife to grow.

From JOHN K. NUSSBAUM

- 1 AMIGO -----80 53 21 20 6 4 4¾
Medium self red with fine white penciling in throat. Grew rather well for us. With special care this will do even better. Order direct.

L .25 M .15 S .10

From L. F. STUECK, Roylton, Minnesota

- 1 ROSE OF MINNESOTA 95 56 24 18 6 6 5½
Slightly ruffled rose lavender. Unusual coloring. "Rose of Minnesota is a fine glad and some way the general public should have a chance to grow it. 6½ in. size, with seven open and perfect facing, etc." Excerpt from a letter we received from Dr. A. M. Watson.

1.00 large jumbo .50 all other sizes.

We would like you to send your orders direct to Mr. Stueck. We will appreciate mentioning us however.

We also have good report on a dark purple from the above garden. 58 tall with 5, 5½ to 6½ open and 7 in color. We had this in very small bulbs. Florets nicely ruffled. You can obtain this from above 1.00 any size.

From GEO. W. WILSON

Here is where the printer takes a nick out of us and maybe the postage also. Too many Wilson creations that are excellent and demanding space in these pages. If George would just sit back ad rest awhile we could save a lot of space.

2 KING TAN -----80 50 25 20 8 5 5½

Ruffled rose tan. Good prize winner. Very well liked for its color. Will grow larger and never kinks here.

L 1.00 M .60 S .40 Bits 1 for .10

2 MALAY CHIEF -----80 52 26 18 7 4 4¾

Very dark purple. Again O. K. More ribbons.

L .15 M .10 S 2 for .10

3 MRS. R. McGOVERN ---75 52 23 22 10 4 4

Orange scarlet. Small rose feather covering yellow. Color O. K. with us but not our favorite. However it always produces spikes that will win.

L .60 M .40 S .20 Bits 10 for .40

2 BOMBAY -----75 54 22 18 6 4 5

Heavily ruffled rich smoky copper ribbon collector.

L .15 M .10 S 2 for .10

2 FASHION PLATE -----90 54 23 18 6 5 5½

Large ruffled cream.

L .40 M .25 S .10 Bits 15 for .70

3 JULES AMOTT -----80 60 26 22 8 5 5

Velvet dragon red. One of our favorites and a very good show glad in addition to its beauty. You cannot help but like it.

L .60 M .40 S .20 Bits 12 for .40

2 BUCKEYE ROSE -----85 54 25 20 7 7 5¾

Old rose with some smoke, mixture of rust also. Another one we can hardly wait each year to see in bloom. Always wish we had more of this.

L .40 M .25 S .10 Bits 15 for .50

3 PURPLE CLASSIC -----85 48 23 18 7 3 4½

1 KING CLICK -----90 54 29 21 8 4 5½

Ruffled scarlet red. Furnished us with as wonderful spikes as we have ever seen. This will click at the shows.

2 TREASURY GOLD ----100 56 24 22 6 3 5½

Golden salmon. For most growers this far surpasses these figures and is a real show glad. The last two named have been taken over by Mr. Evans. Ohio is quite a distance from Wisconsin and Manitowoc is rather far north when you arrive in Wisconsin. However Mr. Evans took so many ribbons that one exhibitor at our State show asked me if Mr. Evans lived in Manitowoc. No harm meant Herb. He was just a beginner and was jumping to conclusions. With these in his garden Mr. Evans is again assured of an extra dozen firsts. We had no seedlings or 1942 introductions from Mr. Wilson this past season. Maybe he is sliding down hill?

Returning after eating a sandwich we find a list of Wilson introductions for 1942 and have come to the conclusion we are slipping. We are not crabbing yet for we don't want to have to get out a special Wilson edition, assuming the new ones keep up the standard.

1 ROSY MORN -----80 58 33 25 7 6 6

Coral rose with white throat blotch. Wide open. We have given performance of one of the better spikes. They consistently opened six however, in 50 inches height and 5½ or over for size. Should make a fine prize winner. We are sorry not to be able to list price on this but it probably will be marketed by one individual. Don't forget to inquire about it, we will give you what further information we receive.

E. H. LINS, Cologne, Minnesota, also has a ROSY MORN. This is also good and entirely different in color so that you can grow them both.

1 QUAKER LADY -----85 25 23 22 8 4 4

A good color soft lavender and always very clean. Some slight ruffling. Good texture.

1 LADY ESTHER -----80 56 26 20 9 5 5½

1 99 -----75 42 20 20 6 6 4

Very lovely pure white with lavender stamens.

1 176 -----80 48 23 22 6 6

Lavender pink with cream throat. Dusted with sparkling silver. Some variance in size, also in number open up to 8.

1 140 -----70 56 25 20 5 4 6

Slightly ruffled salmon pink orange pink or light pink depending upon light, etc. Looks like a Picardy seedling but may not be.

With excellent facing, spacing and spike on all of these. With colors clean and attractive. With general make up excellent, we had to include all of these.

Rich yellow with slightly suffled and recurved petals.
- 1 003X1 -----75 58 24 20 7 4 4
Heavily ruffled pink and cream. Seedling of Sisson and Crinkles. These from an old hand at hybridizing. Way back when, Mr. Fisher planted some seed and discovered that some of his blooms from these surpassed what he had in named varieties. For years he has been continuously working along this line but has always kept his results to himself. You may expect good things from here.

1 No. 50 -----95 54 20 18 7 5 5
Ruffled smoky red. The smoky in this does not in any way detract from its appearance. All spikes of this were wonderful. Florets in perfect placement, slightly ruffled, wide open and excellent texture.

1 No. 182 -----79 55 23 20 7 4 5
Plain petaled, wide open lavender with good color, fine texture and wide open florets. A very fine spike.

We have an additional five seedlings O. K'd. from those received from this garden. All with 8 and 10 open. This whole collection bloomed under poor conditions. We are withholding figures in the balance since they will not be available this year. No. 50 and No. 182 will be available for distribution, probably through Heberling Gardens. Should we fail to have further information on this before this copy rolls over the press we ask you to write us. We strongly recommended these to M. Heberling and suggest you be sure to obtain these without delay.

We are looking forward to several fine additions for 1942.

From GEO. SCHEER, M. D.

We had a large number of excellent seedlings from this garden. The Doctor will not introduce any that have not been thoroughly tried throughout the country and proved worthwhile. There would be no object in our listing so many here that may never be introduced. We take pleasure in calling your attention to 35 C 4185-6 which was introduced in 1941 as WHITE GOLD. Approximately 70 days, about 5 ft. tall with 5 and 6 6½" and over open. Slightly ruffled cream with gold in the throat. Heavy texture. This has an excellent record on the show bench and is rather outstanding in the garden. If you want to use this as a commercial glad in smaller size, you can plant on light soil, give little care and you will find a marvelous run of spikes for that purpose. If you don't grow this in '42 you soon will grow it.

L 2.50 M 2.00 S 1.50 Bits 1 for .25

BEO WULF Nicht Lavender rose.

L 2—15c

BETSY BOB UP Creamy yellow sport of Betty Nuthall with shading of pink.

L 2—10c

BETTY HUMPHRIES Moir Darker Betty Nuthall. Much better color. You will like this better than Nuthall.

L 25c M 15c S 10c Bits 10—15c

Bi Chloride of Mercury is going to be hard to get and price up considerable. We saved money for many of our friends.

BIT O'HEAVEN * Down Rich rather dark orange. Very tall with a long flowerhead and many open. Excellent bulbs.

L 2—10c

BLUE ADMIRAL Christ Deep violet. Very good but several medium priced new ones replacing it.

L 2—10c

CARIOCA * Bones Showy orange. Lighter throat. Good cut and interesting novelty.

L 10c M 2—15c S 2—10c Bits 25—15c

CORINELLA * Moir Violet. Color is wonderful, florets very nice. Usually weak stems for us but many have good luck with it.

L—10c

CREVE COUER * E. Young Burnt orange with prominent throat. Striking appearance. Performance regular and good. Think you will like it.

L 2—10c

DEL RAY * Burt. Large tall scarlet red with white throat. One of the very best. Tourists driving by all insist on having this. Excellent habits and fine for late August shows. Would take them all were it early enough. If you are not now growing it you certainly should do so.

L 2—10c Other sizes in proportion.

DIXIE BELLE * Lins Rich Medium size brilliant orange. Shines as though dusted with gold.

L 1—15c

DR. F. E. BENNETT Dien A good old scarlet.

L 2—10c

L 2—10c

GOLDEN CHIMES Ellis Ruffled light yellow of good size.

2—15c

GOLDEN LANCER * Heberling Rich yellow, tall growing. Strong in the commercial field.

2—15c

GRETA GARBO * Pf Soft rose pink. Very beautiful variety and no crooking for us this year.

We have just noticed a mix up in this in several gardens and at the shows with Pfitzers Masterpiece. We received three shipments from Holland at different times and all were grown separately. These three shipments also came from different parties and we feel confident there can be no error here. Pfitzers Masterpiece came to us in a separate shipment, also from across the water, and until we can check this back to its source we will stick to our labeling.

L 50c M 35c S 25c Bits 6—25c

HELEN BALL Moff six inch rosey salmon with up to 10 open.

L 1—10c

NANCL ANN * Kin Small size lavender pink. Much better than many of this size that are being grown.

L2—10c

OLIVE MARIE BROWN Small yellow and bronze. The color is wonderful Quite a little crooking but stem is pliable and this can be made up marvelously well. Wouldn't want to be without this for commercial work were we in that business.

L 2—10c

ORANGE BUTTERFLY Sal Fine for the growers of the little ones

L 2—10c

OPEONGO Moff Rich scarlet with cream feather. Many open.

OREGON ROSE Mit Brandon. Beautiful rose pink.

L 50c M 30c S 20c Bits 2—10c

PAGEANT * Butt Medium size rich pink with yellow in lower throat.

PEARL MOFFIT Moff Pure white with cream throat blotch. 8 to 10 open. Straight spikes with many buds.

PEGGY LOU * Wil Shrimp or rose pink. Seems to be some blue hidden in its make up. Considered by many as better looking than Picardy. Certainly produces show spikes and has probably won more ribbons over a short period of years than any other in a like period. First florets start closer to the ground than some would like but the spike is easily cut out, has a very long flowerhead. We do not mean that this is short. If you haven't grown this you should. Price is low

L 2—15c M 2—10c S 5—10c Bits 40—10c

PFITZERS MASTERPIECE * Pf Large blush pink. Beautiful florets. Tall growing. Have heard it crooks but has never done so here. Don't know of anyone throwing it away.

CALIFORNIA, GRAND OPERA, HELEN OF TROY, JUNE BRIDE,
KING OF HEARTS, SIR GALAHAD. Six patented Salbach var-
ieties. One each for \$2.25. You saw these at the shows, saw them
take the ribbons. These cannot be resold and we obtain these from
Salbach for you.

If you haven't seen what you want, listed, please inquire. We have
tried to list some of each color class and from various sections of the
country. Our storage is full of others also. Anything we do not have
we will gladly get for you.

The Japs have just decided they do not care to exist any longer as
a nation as this goes to the printer. Their getting off to such a rotten
kind of start will make the job a harder and longer one before it is
through. Many Mothers will be torn by fear and anxiety. Don't be
selfish with your cut flowers. Brighten a few moments for as many as
you can.

"MORE THAN YOU EXPECTED"

"The tree that never had to fight
For sun and sky and air and light,
That stood out in the open plain,
And always got its share of rain,
Never became a forest king,
But lived and died a scrubby thing.

The man who neved had to toil,
Who neved had to win his share,
Of sun and sky and light and air,
Never became a manly man,
But lived and died as he began.

Good timber does not grow in ease;
The stronger wind, the tougher trees.
The farther sky, the greater length;
The more the storm, the more the strength.

But sun and cold, by rain and snows,
In trees or man good timber grows.
Where thickest stands the forest growth,
We find the patriarchs of both,
And they hold converse with the stars
Whose broken branches show the scars
Of many winds and much of strife.
This is the common law of life."

Dear Lord, in the battle that goes on thru life,
I ask but a field that is fair;
A chance that is equal with all in the strife,
And courage to strive and to dare.
And if I should win, let it be by the code,
With my faith and my honor held high.
And if I should lose let me stand by the road,
And cheer as the winner goes by.

—Knut Rockne.
